

Just Say NO.....to the powerful elite who want to consume the
airways and the God given right of freedom of choice. Do not
allow
the continuous acquisitions and mergers that slowly tightens a
strangle-hold on independent radio stations and networks.
Stop
corporate domination and continue to pursue opportunities for
future generations to hear truth and have access of free
expression
through media. These rights were hard fought by our
ancestors and
should not be given away to the rich and politically motivated.
Thanks-you.
